James,

I appreciate your meeting with me yesterday.

We talked about the Division needing a letter from SITLA to concur with your revised NOI, and it just so happens we received a letter from SITLA yesterday conditionally approving your changes. However, they noted that the SITLA lease number was expired and the map dated 12/13/2006. Please send us a revised Page 3 of the NOI you submitted with the current lease number and an updated map as SITLA requested. You don't need to redo the entire form. Since you need to send a slight revision anyway, please include a replacement Page 6 with the Variance Request marked as "No" and we'll include that in the file rather than the initialed corrected one we did yesterday. It would be better to have a clean NOI than one that has an initialed correction on it. Once I receive those, the Division will issue a conditional approval letter.

I'll try to get a letter out today with the 2-acre bond amount. It will be a revised version of the previous Bond Escalation form letter we sent previously. Paul Baker is out today, so I'll have to get his designated surrogate to sign it.

Thanks!

James,

Please review the email below that I sent on Dec. 18. We received the revised map on Jan. 6 that SITLA requested, but we still need to get a replacement Pg 3 of the NOI form that shows the correct lease number.

As also requested below, please send a replacement Pg 6 with the Variance Request marked "No."

You can mail them to us, or for faster response, fax both pages to the attention of Paul Baker at [801-359-3940](tel:801-359-3940), or attach them to an email to either me or Paul. Once we receive those, I can call the NOI complete and approved pending proof of sufficient bond in place.

Please let me know if you have any questions or need any assistance.

Thanks,
